College should most importantly focus more on giving practical knowledge to student like about how corporate work in actual also some of the things which will help them to prepare for interviews , most importantly communication classes should be improved

Good

Yes

yearly meet

Arranging atleast one cultural event for the academic year

The college should fire teachers like Nayana Sail from the college for the betterment of students and nation. Teachers like Nayana are curse to the teaching profession

college should recruit a full time placement officer/or incharge,who can provide an placement opportunity to students.

What system we introduce unless we change the approach of the students towards the career. Graduation shouldn't be just a degree. To bring up the value of this degree, the education system must evolve regularly.

However the students should be given a warm right from higher secondary level. A well qualified committed faculty who is willing to bring up the strengths of the students is required in today's systems which comes at a search and price.

Finance Management could be one of the subjects in the curriculum with compulsory internship in any organisation
