**ANALYSIS AND ACTION TAKEN BASED ON THE FEEDBACK FROM TEACHERS
FOR THE ACADEMIC YEAR (2023-2024)**

Teacher Feedback on NEP 2023-24

1. The majority support moving from the CBCS to the NEP system, though some educators are sceptical or only partly agree on its necessity.
2. Respondents believe the NEP curriculum effectively enhances knowledge, life, and application skills, but its impact on employability remains uncertain.
3. Many educators feel the NEP curriculum helps bridge the gap between academics and industry, but some believe it achieves this only "to some extent."
4. Most respondents advocate for frequent curriculum updates, while a minority think that constant revisions may not always be necessary.
5. The NEP syllabus is generally viewed positively for improving the quality of undergraduate education at Goa University.
6. There are mixed perceptions about the curriculum's ability to prepare students for national-level competition, with some doubting its effectiveness in this regard.
7. The examination pattern under NEP is widely seen as beneficial for enhancing student performance.
8. Most educators agree that the NEP curriculum offers students greater flexibility in choosing their subjects.
9. Overall satisfaction with the NEP curriculum is high, although some educators express only partial satisfaction.

Key Suggestions for Improvement:

1. Strengthen components that directly address employability to better prepare students for the professional world.
2. Incorporate more industry-relevant modules and practical training sessions to ensure alignment with real-world requirements.
3. Implement a structured, periodic review process to ensure the curriculum remains updated and responsive to evolving educational and industry standards.
